

Acoustic Plaster Ceilings

Product data sheet 104

Technical data

Vogl Supergrund primer LF

Description

The product "Vogl Supergrund primer LF" is a universal acrylate-based primer free from solvents.

Application area

As a primer of superficially absorbent subbases to reduce absorbency, e.g. for perforated plasterboards and for acoustic plaster systems.

Execution

Processing by a specialist contractor according to the corresponding system descriptions.

Characteristics

Free from solvents and softening agents, low-emission, adhesion-enhancing, absorbency-reducing, surface-hardening

Composition

Polymeric dispersion, water, additives, preservatives (acc. to the Directive on architectural coatings of the Association of the German Paint Industry (VdL-Richtlinie Bautenanstrichmittel))

Density	Approx. 1.0 g/cm ³ (= kg/l)
Consumption	Approx. 0.1 – 0.4 l/m ² per coat (exact consumption data to be determined at the object)
Formulation	The product is ready for use, but can be further diluted with 5 to 8 % of water. There must be no shiny layer after application.
Processing	The subbase must be solid, clean and of sufficient load-bearing capacity, as well as free from sintered layers and parting agents. Use painting methods or a roller to apply the primer. Spray application of primer onto perforated ceiling panels is not permitted. Drying time is usually 12 h ("overnight") at +20 °C / 65 % relative humidity.
Cleaning the tools	Clean the tools using sufficient water immediately after use.
Delivery	Colourless in a plastic canister with screw cap.
Storage	Store tightly closed and frost-free; do not expose to direct sunlight.
Safety	Please see our safety data sheet for any further information about handling the product as well as its storage and disposal.
Notes	The information above serves to ensure the normal use of the product. Any deviating applications require prior consultation with the manufacturer.

All data given in this product data sheet are based on our current state of technical knowledge and experience. They do not, however, constitute any assurance of product properties or a legally valid contractual relationship. We reserve the right to make changes which are in the interest of technological progress.
